Client Statements

Danya Was extremely fortunate to have a company as qualified, professional, and supportive as supreme soft last year when we had a very challenging large technology staffing requirement. We had a very demanding client with unreasonable expectations and we needed to bring on 25-30 IT support staff to get the job done in a short period of time.

Supreme Soft really came through when it counted. They were able to provide very qualified candidates within our short timeframe. The staff was skilled, Professional, and provided the additional consultative value-add essential for success on this initiative.

This Danya/Supremesoft team effectively completed this project on time and within budget and we were able to achieve a very successful outcome with a very satisfied client.
